

## Track 2 Workshop: Advanced Cell Cycle Analysis

**Facilitator:** Stephan Ruetz, Laboratory Head, Oncology Research Group, Novartis Institutes for BioMedical Research, Basel, Switzerland

*Dr. Stephan Ruetz holds a laboratory head position in the Oncology Research Group at the Novartis Institutes for BioMedical Research in Basel, Switzerland. After his undergraduate education in Biochemistry at the Swiss Federal Institute of Technology in Zurich, he pursued his first doctorate at Stanford University, followed by a second course of training at McGill University. In 1996, Dr. Ruetz joined the Oncology Research Group of the former Ciba Geigy AG as a research scientist. His laboratory is mainly involved in the molecular and cellular characterization of putative novel drug candidates. In addition, Dr. Ruetz has been the Pre-clinical Representative on a Novartis International Project Team for many years.*
